ECOLOGY

ALL FORMS OF LIFE IN RELATION TO ENVIRONMENT

OFFICAL PUBLICATION OF THE

ECOLOGICAL SOCIETY OF AMERICA

VOLUME 69, 1988

Published Bimonthly at Tempe, Arizona

by the

ECOLOGICAL SOCIETY OF AMERICA

The Ecological Society of America

OFFICERS FOR 1988–1989

President: HAROLD A. MOONEY, Department of Biology, Stanford University, Stanford, California 94305

Vice President: JANE LUBCHENCO, Department of Zoology, Oregon State University, Corvallis, Oregon 97331

Secretary: HAZEL R. DELCOURT, Department of Botany, University of Tennessee, Knoxville, Tennessee 37996

Treasurer: REBECCA R. SHARITZ, Savannah River Ecology Laboratory, Drawer E, Aiken, South Carolina 29801

Business Manager: DUNCAN T. PATTEN, Ecological Society of America, Center for Environmental Studies, Arizona State University, Tempe, Arizona 85287

AIMS

THE ECOLOGICAL SOCIETY OF AMERICA was founded in 1915 for the purpose of unifying the science of ecology, stimulating research in all aspects of the discipline, encouraging communication among ecologists, and promoting the responsible application of ecological data and principles to the solution of environmental problems. Ecology is the scientific discipline that is concerned with the relationships between organisms and their past, present, and future environments. These relationships include physiological responses of individuals, structure and dynamics of populations, interactions among species, organization of biological communities, and processing of energy and matter in ecosystems.

MEMBERSHIP

Membership is open to persons who are interested in the advancement of ecology or its applications, and to those who are engaged in any aspect of the study of organisms in relation to environment.

The following classes of membership and their annual dues for 1989 are:

Associate Members: $25.00

Active Members/I: $30.00

Active Members/II: $60.00

Sustaining Members: $75.00

Student Members/Active: $40.00

Student Members/Sustaining: $55.00

Life Members/Active: $800.00

Life Members/Sustaining: $950.00

Emeritus Members: Special rates available (contact the Business Manager for information)

The Society publishes three journals: the BULLETIN OF THE ECOLOGICAL SOCIETY OF AMERICA, ECOLOGY, and ECOLOGICAL MONOGRAPHS. The BULLETIN, issued quarterly, contains announcements of meetings of the Society and related organizations, programs, awards, articles, and items of current interest to members. The bimonthly journal ECOLOGY publishes essays and articles that report and interpret the results of original scientific research. ECOLOGICAL MONOGRAPHS is a quarterly journal for longer research articles.

All members receive the BULLETIN OF THE ECOLOGICAL SOCIETY OF AMERICA. Members in the following membership categories receive ECOLOGY: *Active/II, Student: Active, Life/Active, Sustaining, Student/Sustaining,* and *Life/Sustaining.* Members in the last three categories (*Sustaining, Student/Sustaining, Life/Sustaining*) also receive ECOLOGICAL MONOGRAPHS.

Associate Members and *Active Members/I* do not receive ECOLOGY or ECOLOGICAL MONOGRAPHS. *Associate Members* are not eligible to vote or to hold office in the Society. They may become voting members in any one of the above classes upon payment of the appropriate dues. All voting members are eligible to hold office in the Society.

Application blanks for membership may be obtained from the Business Manager, to whom all correspondence concerning membership should be addressed. Checks accompanying membership application should be made payable to the ECOLOGICAL SOCIETY OF AMERICA.

TABLE OF CONTENTS, Volume 69, 1988

Number 1, February

Strong, D. R. Endophyte mutualism and plant protection from herbivores 1
Carroll, G. Fungal endophytes in stems and leaves: from latent pathogen to mutualistic symbiont 2–9
Clay, K. Fungal endophytes of grasses: a defensive mutualism between plants and fungi 10–16
Atsatt, P. R. Are vascular plants "inside out" lichens? 17–23
Lajtha, K., and W. H. Schlesinger. The biogeochemistry of phosphorus cycling and phosphorus availability along a desert soil chronosequence 24–39
Sala, O. E., W. Parton, L. A. Joyce, and W. K. Lauenroth. Primary production of the central grassland region of the United States 40–45
Hulbert, L. C. Causes of fire effects in tallgrass prairie 46–58
Seastedt, T. R. Mass, nitrogen, and phosphorus dynamics in foliage and root detritus of tallgrass prairie 59–65
Frost, I. A Holocene sedimentary record from Anañgucocha in the Ecuadorian Amazon 66–73
Martin, T. E. Habitat and area effects on forest bird assemblages: is nest predation an influence? 74–84
Searcy, W. A. Do female Red-winged Blackbirds limit their own breeding densities? 85–95
Gavin, T. A., and E. K. Bollinger. Reproductive correlates of breeding-site fidelity in Bobolinks (*Dolichonyx oryzivorus*) 96–103
Payne, R. B., L. L. Payne, and S. M. Doehlert. Biological and cultural success of song memes in Indigo Buntings. 104–117
Sullivan, K. A. Ontogeny of time-budgets in Yellow-eyed Juncos: adaptation to ecological constraints 118–124
Holbrook, S. J., and R. J. Schmitt. The combined effects of predation risk and food reward on patch selection 125–134
Hewett, S. W. Predation by *Didinium nasutum*: effects of predator and prey size 135–145
Rollo, C. D., and M. D. Hawryluk. Compensatory scope and resource allocation in two species of aquatic snails 146–156
Gotelli, N. J. Determinants of recruitment, juvenile growth, and spatial distribution of a shallow-water gorgonian 157–166
Grant, B. W., and A. E. Dunham. Thermally imposed time constraints on the activity of the desert lizard *Sceloporus merriami* 167–176
Berger, J., and C. Cunningham. Size-related effects on search times in North American grassland female ungulates 177–183
Semlitsch, R. D., D. E. Scott, and J. H. K. Pechmann. Time and size at metamorphosis related to adult fitness in *Ambystoma talpoideum* 184–192
Ketcham, R. B., D. R. Levitan, M. A. Shenk, and R. M. Eisenberg. Do interactions of cellular slime mold species regulate their densities in soil? 193–199
Horvitz, C. C., and D. W. Schemske. A test of the pollinator limitation hypothesis for a neotropical herb 200–206
Bronstein, J. L. Limits to fruit production in a monoecious fig: consequences of an obligate mutualism 207–214
Lau, R. R., and D. R. Young. Influence of physiological integration on survivorship and water relations in a clonal herb 215–219
Lacey, E. P. Latitudinal variation in reproductive timing of a short-lived monocarp, *Daucus carota* (Apiaceae) 220–232
Herrera, C. M. The fruiting ecology of *Osyris quadripartita*: individual variation and evolutionary potential 233–249
Howard, J. J. Leafcutting ant diet selection: relative influence of leaf chemistry and physical features 250–260

RIETSMA, C. S., I. VALIELA, AND R. BUCHSBAUM. Detrital chemistry, growth, and food choice in the salt-marsh snail (*Melampus bidentatus*) 261–266
ROSSITER, M., J. C. SCHULTZ, AND I. T. BALDWIN. Relationships among defoliation, red oak phenolics, and gypsy moth growth and reproduction 267–277
KOPTUR, S., AND J. H. LAWTON. Interactions among vetches bearing extrafloral nectaries, their biotic protective agents, and herbivores 278–283
LOEHLE, C. Problems with the triangular model for representing plant strategies 284–286
ADIS, J., V. MAHNERT, J. W. DE MORAIS, AND J. M. GOMES RODRIGUES. Adaptation of an Amazonian pseudoscorpion (Arachnida) from dryland forests to inundation forests 287–291
REVIEWS 292–302

NUMBER 2, APRIL

DELUCIA, E. H., W. H. SCHLESINGER, AND W. D. BILLINGS. Water relations and the maintenance of Sierran conifers on hydrothermally altered rock 303–311
APLET, G. H., R. D. LAVEN, AND F. W. SMITH. Patterns of community dynamics in Colorado Engelmann spruce-subalpine fir forests 312–319
HOPPES, W. G. Seedfall pattern of several species of bird-dispersed plants in an Illinois woodland 320–329
ROOT, T. Energy constraints on avian distributions and abundances 330–339
MIZUTANI, H., AND E. WADA. Nitrogen and carbon isotope ratios in seabird rookeries and their ecological implications 340–349
GUYER, C. Food supplementation in a tropical mainland anole, *Norops humilis*: demographic effects 350–361
GUYER, C. Food supplementation in a tropical mainland anole, *Norops humilis*: effects on individuals 362–369
ROBERTSON, D. R., D. G. GREEN, AND B. C. VICTOR. Temporal coupling of production and recruitment of larvae of a Caribbean reef fish 370–381
BAIN, M. B., J. T. FINN, AND H. E. BOOKE. Streamflow regulation and fish community structure 382–392
SWIHART, R. K., N. A. SLADE, AND B. J. BERGSTROM. Relating body size to the rate of home range use in mammals 393–399
RAIMONDI, P. T. Settlement cues and determination of the vertical limit of an intertidal barnacle 400–407
GROVER, J. P. Dynamics of competition in a variable environment: experiments with two diatom species 408–417
SPRULES, W. G., AND J. E. BOWERMAN. Omnivory and food chain length in zooplankton food webs 418–426
BLEILER, J. A., G. A. ROSENTHAL, AND D. H. JANZEN. Biochemical ecology of canavanine-eating seed predators 427–433
BERGELSON, J. M., AND J. H. LAWTON. Does foliage damage influence predation on the insect herbivores of birch? 434–445
RATHCKE, B. J. Interactions for pollination among coflowering shrubs 446–457
MASTERS, A. R., S. B. MALCOLM, AND L. P. BROWER. Monarch butterfly *Danaus plexippus* thermoregulatory behavior and adaptations for overwintering in Mexico 458–467
FAHRIG, L., AND J. PALOHEIMO. Effect of spatial arrangement of habitat patches on local population size 468–475
JAMES, S. W. The postfire environment and earthworm populations in tallgrass prairie 476–483
GRULKE, N. E., AND L. C. BLISS. Comparative life history characteristics of two high arctic grasses, Northwest Territories 484–496
BIGWOOD, D. W., AND D. W. INOUYE. Spatial pattern analysis of seed banks: an improved method and optimized sampling 497–507
YODZIS, P. The indeterminancy of ecological interactions as perceived through perturbation experiments 508–515

PAYETTE, S. Late-Holocene development of subarctic ombrotrophic peatlands: allogenic and autogenic succession 516–531
WARREN, S. D., H. L. BLACK, D. A. EASTMOND, AND W. H. WHALEY. Structural function of buttresses of *Tachigalia versicolor* 532–536
HARVEY, L. E., F. W. DAVIS, AND N. GALE. The analysis of class dispersion patterns using matrix comparisons 537–542
SHOLES, O. D. V. Leaf litter consumption after timber harvest: percentages differ, totals do not 543
BIRD, G. Reply to Sholes 544
ANDRÉN, H., AND P. ANGELSTAM. Elevated predation rates as an edge effect in habitat islands: experimental evidence 544–547
REVIEWS 548–556

STRONG, D. R. Food web theory: a ladder for picking strawberries? 1647
PAINE, R. T. Food webs: road maps of interactions or grist for theoretical development? 1648–1654
COHEN, J. E., AND C. M. NEWMAN. Dynamic basis of food web organization 1655–1665
HASTINGS, A. Food web theory and stability 1665–1668
PIMM, S. L., AND R. L. KITCHING. Food web patterns: trivial flaws or the basis of an active research program? 1669–1672
PETERS, R. H. Some general problems for ecology illustrated by food web theory 1673–1676
GOLDBERG, D. E., AND K. L. GROSS. Disturbance regimes of midsuccessional old fields 1677–1688
SPIES, T. A., J. F. FRANKLIN, AND T. B. THOMAS. Coarse woody debris in Douglas-fir forests of western Oregon and Washington 1689–1702
HALPERN, C. B. Early successional pathways and the resistance and resilience of forest communities 1703–1715

DEVLIN, B. The effects of stress on reproductive characters of *Lobelia cardinalis* 1716–1719
BONAN, G. B. The size structure of theoretical plant populations: spatial patterns and neighborhood effects 1721–1730
FRANCO, A. C., AND P. S. NOBEL. Interactions between seedlings of *Agave deserti* and the nurse plant *Hilaria rigida* 1731–1740
HORVITZ, C. C., AND D. W. SCHEMSKE. Demographic cost of reproduction in a neotropical herb: an experimental field study 1741–1745
ARMBRUSTER, W. S. Multilevel comparative analysis of the morphology, function, and evolution of *Dalechampia* blossoms 1746–1761
PIERCE, L. L., AND S. W. RUNNING. Rapid estimation of coniferous forest leaf area index using a portable integrating radiometer 1762–1767
DINERSTEIN, E., AND C. M. WEMMER. Fruits *Rhinoceros* eat: dispersal of *Trewia nudiflora* (Euphorbiaceae) in lowland Nepal 1768–1774
GOLDSBOROUGH, W. J., AND W. M. KEMP. Light responses of a submersed macrophyte: implications for survival in turbid tidal waters 1775–1786
PAINE, R. T. Habitat suitability and local population persistencne of the sea palm *Postelsia palmaeformis* 1787–1794
KNEIB, R. T. Testing for indirect effects of predation in an intertidal soft-bottom community 1795–1805
KERFOOT, W. C., C. LEVITAN, AND W. R. DEMOTT. *Daphnia*-phytoplankton interactions: density-dependent shifts in resource quality 1806–1825
GILBERT, J. J. Susceptibilities of ten rotifer species to interference from *Daphnia pulex* 1826–1838
WEST, L. Prey selection by the tropical snail *Thais melones*: a study of interindividual variation 1839–1854
HARVELL, C. D., AND R. K. GROSBERG. The timing of sexual maturity in clonal animals 1855–1864
KATS, L. B., J. W. PETRANKA, AND A. SIH. Antipredator defenses and the persistence of amphibian larvae with fishes 1865–1870
MCMAHON, T. E., AND J. C. TASH. Experimental analysis of the role of emigration in population regulation of desert pupfish 1871–1883
GRIMM, N. B. Role of macroinvertebrates in nitrogen dynamics of a desert stream 1884–1893
POWER, M. E., A. J. STEWART, AND W. J. MATTHEWS. Grazer control of algae in an Ozark Mountain stream: effects of short-term exclusion 1894–1898
BLONDEL, J., D. CHESSEL, AND B. FROCHOT. Bird species impoverishment, niche expansion and density inflation in Mediterranean island habitats 1899–1917
SLAGSVOLD, T., AND J. T. LIFJELD. Ultimate adjustment of clutch size to parental feeding capacity in a passerine bird 1918–1922
MAURER, B. A., AND J. H. BROWN. Distribution of energy use and biomass among species of North American terrestrial birds 1923–1932
GILL, F. B. Trapline foraging by hermit hummingbirds: competition for an undefended, renewable resource 1933–1942
FRANK, C. L. Diet selection by a heteromyid rodent: role of net metabolic water production 1943–1951
MENKENS, JR., G. E., AND S. H. ANDERSON. Estimation of small-mammal population size 1952–1959
CROME, F. H. J., AND G. C. RICHARDS. Bats and gaps: microchiropteran community structure in a Queensland rain forest 1960–1969
MORSE, D. H. Relationship between crab spider *Misumena vatia* nesting success and earlier patch-choice decisions 1970–1973
MAC NALLY, R. C. On the statistical significance of the Hutchinsonian size-ratio parameter 1974–1982
KNISLEY, C. B., AND S. A. JULIANO. Survival, development, and size of larval tiger beetles: effects of food and water 1983–1992
RYTI, R. T., AND T. J. CASE. Field experiments on desert ants: testing for competition between colonies 1993–2003

Joos, B., T. M. Casey, T. D. Fitzgerald, and W. A. Buttemer. Roles of the tent in behavioral thermoregulation of Eastern tent caterpillars 2004–2011
Preszler, R. W., and P. W. Price. Host quality and sawfly populations: a new approach to life table analysis 2012–2020
Sacchi, C. F., P. W. Price, T. P. Craig, and J. K. Itami. Impact of shoot galler attack on sexual reproduction in the arroyo willow 2021–2030
Sakai, A. K., and T. L. Sharik. Clonal growth of male and female bigtooth aspen (*Populus grandidentata*) 2031–2033
Reviews 2034–2042
Errata 1307, 1638
Ad Hoc Editors of Manuscripts 2043
Reviewers of Manuscripts 2043–2049
